Dear Li Nan,

Hearing that you plan to develop a new app of students sharing clothes, I feel truly proud of your novel idea. Personally speaking, I am willing to share my clothes on your app. The reasons are as follows.

To begin with, it will be wonderful for me if I learn that someone that I barely know of can share my happiness of wearing my clothes. It feels like you are emotionally connecting someone in your clothes. Then I may naturally wish to know more about that particular "someone" and probably further deepen our relationship. In the end, a good friendship between me and my clothes mate might be built based on our common clothes. What's more, if other students can try my clothes through the app. In turn, I also can try their new clothes. Therefore, students without actually spending any money.
